

REDEEM Project Final Event

The present and future of Dual/Joint Programmes

Stockholm: 23-24 October 2017

Contents

The project has analyzed in the past two years the impact of Dual/Joint programmes on the life and career of the graduates.

At the final event the project team will present the performed activities and the results achieved while invited guests will present best practices related to Double/Joint degrees addressing in particular the employability aspect.

Panel discussions will be organized in order to facilitate the debate and present the point of view of the different stakeholders. At the end of the event a brainstorming session will allow the participants to identify and suggest possible follow-up projects for the further exploitation of the results.
